# Secure it!

Reduce the risk of furniture tip-over accidents

## WARNING: ENSURE THE WALL STRAP IS ATTACHED TO AVOID SERIOUS INJURY OR DEATH.

To avoid any serious or fatal injury, a wall strap has been provided with this product to prevent toppling. We strongly recommend that this product is permanently fixed to the wall or other suitable surface. Fixing devices are not included since different surface materials require different attachments. Please seek professional advice if you are in doubt of what fixing device to use.

## Weight Capacity : 15kgs / Shelf

To reduce the risk of furniture tipover:

- Do not allow children to stand, climb or hang on furniture. It may topple and cause serious injury or death.

- Do not place toys or other child appealing items on top of this furniture, and place heaviest items towards the bottom of the furniture.
- Do not open more than one drawer at the time.
- Anchoring this product to a wall or other suitable surface is recommended. Check anchors regularly.
- Always anchor your TV for safety.

## Wall attachment guide

**For plasterboard**  
(without available wood stud)

**Securing method:**  
Self drilling plasterboard anchor.

**For plasterboard**  
(without available wood stud)

**Securing method:**  
Screw inserted directly into stud.

**For masonry wall**

**Securing method:**  
Solid wall: Plug with screw  
Hollow wall: Spring toggle

Please seek professional advice if you are in doubt of what fixing device to use.

# Assembly Checklist

Read through the instructions carefully before you begin.

Make sure you have all the required tools. Never use power tools unless instructed.

Identify and lay out all of the components before you begin assembly.

Unless instructed, do not fully tighten screws until the item is fully assembled.

## Useful Information

- ! Never use power tools unless specifically instructed. They can damage your components or hardware if used incorrectly.
- ! The most common mistakes made during assembly are using the wrong hardware or getting components back to front.
- ! Always use a soft surface (such as carpet or cardboard) when assembling your product to avoid scratching or damaging the surface of the product.
- ! Bulky items such as wardrobes and bunk beds should be assembled in the room they will be used in as they may not fit through a door once assembled.
- ! Never use any glue until you are certain that the parts belong together.
- ! Periodically check and re-tighten all fasteners. Check the product care label or website for product care instructions.
- ! If you are having any difficulties assembling your product, missing any hardware or components please visit our website Help Centre for further assistance.
- ! Please see page 2 for any safety requirements or weight restrictions.

# What You Need

to assemble the product

DO NOT USE

## Other Tools You Need

Phillips head screwdriver; Hammer

## Parts List

- Box 1:** Left Side Panel (P1) x 1;  
Right Side Panel (P2) x 1;  
Top/Bottom Panels (P3) x 2;  
Centre Panel (P4) x 1;  
Shelf Panel (P5) x 4;  
Front Panel (P6) x 1 &  
Back Panel (P7) x 2

## Hardware Pack:

|                        |                        |                       |                   |                     |                    |
|------------------------|------------------------|-----------------------|-------------------|---------------------|--------------------|
|                        |                        |                       |                   |                     |                    |
| 10 x Wedge Screws (H1) | 1 x Bracket Screw (H2) | 2 x Washers (H3)      | 10 x Dowels (H4)  | 12 x Cam Bolts (H5) | 12 x Cam Nuts (H6) |
|                        |                        |                       |                   |                     |                    |
| 4 x Feet Glides (H7)   | 1 x Wall Bracket (H8)  | 16 x Shelf Studs (H9) | 10 x Wedges (H10) | 4 x Nails (H11)     |                    |

# Step 1

You will need

10 × Dowels  
(H4)

Insert 4 x Dowels (H4) into Top/Bottom Panels (P3x2), 2 x Dowels (H4) into Centre Panel (P4) and 4 x Dowels (H4) into Front Panel (P6).

# Step 2

You will need

12 x Cam Bolts  
(H5)

Phillips Head  
Screwdriver

Secure 6 x Cam Bolts (H5) to Left Side Panel (P1) and 6 x Cam Bolts (H5) to Right Side Panel (P2) by tightening with the Phillips Head Screwdriver.

# Step 3

|                                                                                   |
|-----------------------------------------------------------------------------------|
| You will need                                                                     |
|  |
| 6 × Cam Nuts (H6)                                                                 |
|   |
| Phillips Head Screwdriver                                                         |

This is how a cam nut works...

The head of the cam bolt goes into the open mouth of the cam nut. You then turn the cam nut so it tightens over the bolt.

Insert 4 × Cam Nuts (H6) into Top/Bottom Panels (P3x2) and 2 × Cam Nuts (H6) into Centre Panel (P4) as shown. Rotate the cam nuts so the arrows point towards the incoming cam bolts. Secure the Right Side Panel (P2) to Top/Bottom Panels (P3x2) and Centre Panel (P4) by tightening cam nuts with a Phillips Head Screwdriver. Insert Front Panel (P6) into Right Side Panel (P2) as shown.

# Step 4

Ensure laminated side of back panels are facing the inside of the bookcase.

Slide Back Panels (P7x2) into the grooves of Right Side Panel (P2) and Top/Bottom Panels (P3x2) as shown.

# Step 5

|                                                                                   |
|-----------------------------------------------------------------------------------|
| You will need                                                                     |
|  |
| 6 × Cam Nuts (H6)                                                                 |
|   |
| Phillips Head Screwdriver                                                         |

This is how a cam nut works...

The head of the cam bolt goes into the open mouth of the cam nut. You then turn the cam nut so it tightens over the bolt.

Insert 4 x Cam Nuts (H6) into Top/Bottom Panels (P3x2) and 2 x Cam Nuts (H6) into Centre Panel (P4) as shown. Rotate the cam nuts so the arrows point towards the incoming cam bolts. Secure the Left Side Panel (P1) to Top/Bottom Panels (P3x2) and Centre Panel (P4) by tightening cam nuts with a Phillips Head Screwdriver.

# Step 6

| You will need                                                                     |                                                                                   |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
|  |  |
| 4 × Feet Glides (H7)                                                              | 4 × Nails (H11)                                                                   |
|  |                                                                                   |
| Hammer                                                                            |                                                                                   |

Secure Back Panels (P7x2) to Centre Shelf Panel (P4) with 4 x Nails (H11) along the pre-drawn guideline with the Hammer. Ensure the Nails are evenly spaced along the guideline, approximately 8cm apart. Secure 4 x Feet Glides (H7) to the bottom of Left & Right Side Panels (P1&P2) with the Hammer. Ensure the Feet Glides are evenly spaced, approximately 2cm from the end of each panel.

# Step 7

| You will need                                                                     |                                                                                   |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
|  |  |
| 10 × Wedge Screws (H1)                                                            | 10 × Wedges (H10)                                                                 |
|   |                                                                                   |
| Phillips Head Screwdriver                                                         |                                                                                   |

Insert 12 × Wedges (H10) into Top/Bottom Panels (P3x2) and Left & Right Side Panels (P1&P2) as shown and use 12 × Wedge Screws (H1) to secure by tightening with the Phillips Head Screwdriver.

# Step 8

You will need

16 × Shelf Studs  
(H9)

Insert 16 × Shelf Studs (H9) into the Left & Right Side Panels (P1&P2) at your preferred height. Place the Shelf Panels (P5x4) into the unit by resting each shelf on the shelf studs. Ensure each shelf is positioned securely.

# Step 9

| You will need                                                                     |                                                                                   |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
|  |  |
| 1 × Bracket Screw (H2)                                                            | 1 × Wall Bracket (H8)                                                             |
|  |  |
| 1 × Washer (H3)                                                                   | Phillips Head Screwdriver                                                         |

Use 1 x Bracket Screw (H2) and 1 x Washer (H3) to secure 1 x Wall Bracket (H8) to Top Panel (P3) as shown by tightening with the Phillips Head Screwdriver.

# Step 10

You will need

1 × Washer  
(H3)

Phillips Head  
Screwdriver

Screws and wall plugs  
are not provided,  
please use appropriate  
fixtures for your wall.

We strongly suggest using the wall bracket provided to prevent this unit from toppling. Seek advice from a qualified tradesperson on how to attach this to your specific wall. Move furniture to its final position, make sure it is firmly attached and a snug fit.

### Glass should always be handled with care

Scratches, chips, sudden changes in temperature and hairline fractures may cause the glass to break.  
This glass is designed to break into small, relatively harmless pieces and not sharp fragments..

Avoid placing hot or cold items directly onto the table unless using a thick insulation material such as  
placemats or coasters.

Avoid dropping objects onto the glass. Do not allow hard or pitted objects to come into contact with  
the glass. Never use the top area as a chopping surface. Do not sit or stand on the glass surface.

# Assembly Checklist

Read through the instructions carefully before you begin.

Make sure you have all the required tools. Never use power tools unless instructed.

Identify and lay out all of the components before you begin assembly.

Unless instructed, do not fully tighten screws until the item is fully assembled.

## Useful Information

- ! Never use power tools unless specifically instructed. They can damage your components or hardware if used incorrectly.
- ! The most common mistakes made during assembly are using the wrong hardware or getting components back to front.
- ! Always use a soft surface (such as carpet or cardboard) when assembling your product to avoid scratching or damaging the surface of the product.
- ! Bulky items such as wardrobes and bunk beds should be assembled in the room they will be used in as they may not fit through a door once assembled.
- ! Never use any glue until you are certain that the parts belong together.
- ! Periodically check and re-tighten all fasteners. Check the product care label or website for product care instructions.
- ! If you are having any difficulties assembling your product, missing any hardware or components please visit our website Help Centre for further assistance.
- ! Please see page 2 for any safety requirements or weight restrictions.

# Step 1

Kobi Bookcase  
Large Wide

Kobi Bookcase  
Large Narrow

Ensure that your Kobi Bookcase is secured to the wall with the Wall Bracket provided.

# Step 2

| You will need                                                                     |                                                                                   |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
|  |  |
| 8 × Hinge Screws (H1)                                                             | 4 × Hinges (H3)                                                                   |
|  |  |
| 2 × Soft Close Pads (H4)                                                          | Phillips Head Screwdriver                                                         |

Secure 4 × Hinges (H3) to Door Panel (P1) with 8 × Hinge Screws (H1) by tightening with the Phillips Head Screwdriver.  
Attach 2 × Soft Close Pads (H4) to the corners of Door Panel (P1) as shown.

# Step 3 - Kobi Bookcase Large Narrow

| You will need                                                                     |                                                                                   |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
|  |  |
| 8 × Hinge Plate Screws (H2)                                                       | 1 × Handle +Screw Set (H5)                                                        |
|   |                                                                                   |
| Phillips Head Screwdriver                                                         |                                                                                   |

The Door Panel (P1) can be secured to open from either the left or right side of the Bookcase depending on your preference.

Secure Door Panel (P1) to the left or right side of the Bookcase with 4 x Hinges (H3) using 8 x Hinge Plate Screws (H2) by tightening with the Phillips Head Screwdriver.

Attach the Handle & Screw Set (H5) to Door Frame (P1) by tightening Screw with the Phillips Head Screwdriver.

# Step 3 - Kobi Bookcase Large Wide

| You will need                                                                     |                                                                                   |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
|  |  |
| 16 × Hinge Plate Screws (H2)                                                      | 2 × Handle +Screw Set (H5)                                                        |
|   |                                                                                   |
| Phillips Head Screwdriver                                                         |                                                                                   |

Ensure Hinges are attached to both sets of Doors as shown in Step 2.  
Secure Door Panels (P1x2) to left & right sides of the Bookcase with 8 x Hinges (H3) using 16 x Hinge Plate Screws (H2) by tightening with the Phillips Head Screwdriver.  
Attach the Handle & Screw Set (H5x2) to Door Frames (P1x2) by tightening Screws with the Phillips Head Screwdriver.

# Job Complete!
