Step 1

Unbox the mattress in the bedroom.

Step 2

Carefully cut the sleeve along the tight side of the seam with scissors making sure not to cut the inner clear plastic sleeve (do not use a knife).

Step 3

Roll out the compressed mattress on to a clean, flat surface.

Ensure the top of the mattress is facing up once unrolled.

Step 4

Carefully cut open the plastic bag along the edges. The mattress instantly begins to decompress. Remove the plastic bag.

Step 5

Allow mattress to fully expand. For best results, use on any clean, smooth rigid surface such as ensemble base or flat-slat bed.

Note: it might take up to 48 hours for the mattress to fully recover.

Please see care label affixed to mattress for full cleaning and care instructions.
